## Dear Law Enforcement Professional:

It's tough out there on the streets. Always has been. Always will be.

Give yourself every possible advantage. Equip yourself with the best-selling genuine leather police jacket in America: **Taylor's Leatherwear**.

When you choose **Taylor's Leatherwear**, you're not just buying a jacket, you're making an investment. Our tradition of quality dates back to 1943. Each **Taylor's Leatherwear** jacket is American made by a dedicated craftsman in Tullahoma, Tennessee. A single seamstress, with an average of 10 years experience, sews each individual jacket by hand, using only American processed leather. The result is an attention to detail and a level of craftsmanship that simply cannot be equaled.

You can't beat **Taylor's Leatherwear** for durability, either. The service life of our leather jackets far exceeds that of any other material, making Taylor's the cost-effective choice for police departments and individuals who need to make every penny count. No wonder **Taylor's Leatherwear** is the best-selling premium leather jacket in America, trusted by police departments from Amarillo, Texas to Youngstown, Ohio.

There are other advantages in choosing **Taylor's Leatherwear**: unparalleled comfort, water- and fire-resistance, plus a higher abrasion resistance than any other clothing material, including Kevlar. And then there's the unbeatable look of leather. It demands respect. It projects authority. It communicates a professional image that can stop trouble on the street before it starts.

All **Taylor's Leatherwear** jackets are backed by our Five-Year Guarantee. As always, custom orders are welcome. Please call your local dealer for ordering information.

Regards,

David Patton, President/Taylor's Leatherwear

Holster #TH1

## Taylor's Water & Stain Protector

contains a special polymer agent that repels water, dirt and stains. Recommended for all fine leathers, suede, nubuck and fabric. Ideal for use on shoes, boots, hats, jackets, neckties, handbags and clothing. Gives invisible water and stain protection which won't darken light colored leathers or fabrics.

- Sold by Case of 12 Only

Gloves #WG1

- Available in Crème or Black  
- Constructed from waterproof goatskin leather

# Taylor's Leatherwear

## Nothing Outperforms Leather. Here's why:

**Water Resistant** - Our tests show that a Taylor's Leatherwear jacket will repel water for up to 2 hours before becoming saturated.

**Fire Resistant** - Leather resists burning, providing critical protection in the event of explosion, vehicle accident or other emergency.

**Abrasion Resistant** - Tests by the U.S. DOT National Safety Administration involving motorcycle falls have shown leather to be more abrasion resistant than any other known clothing material, including Kevlar. The random nature of leather fibers gives them an inherent strength that can not be reproduced synthetically. (Study available upon request)

**Windproof** - Leather pores contract in cold wind, providing an effective barrier to inclement weather while holding in body heat.

**Breathable** - Thanks to its natural pores, leather remains supple and strong throughout its service life.

**So Durable** - Leather outlasts almost any other type of clothing, especially under heavy use. All Taylor's Leatherwear police garments are guaranteed for 5 years.

**A Smart Buy** - Virtually no other material is as cost efficient as leather. Assuming a very conservative 10-year life, a \$350-\$400 per jacket costs only \$35-\$40 per year, far below that of any synthetic or plastic alternative.

**Professional Look** - Leather jackets demand respect. They project a professional and authoritative image. In fact, the NYPD has documented a reduction in attacks on officers wearing leather in comparison those wearing cloth.

## Protect your investment in leather with Appalachian Leather Cleaners

Taylor's Leatherwear now offers leather cleaning, repair, refinishing, alterations, and restoration to the same high standards as our jackets. Our Appalachian Leather Cleaners features the new Suede-Life Clean & Green system, a proprietary, water-based system which cleans suede and leather without using environmentally harmful solvents.

Suede-Life allows us to process cloth/leather or vinyl//leather combination garments safely. The process also eliminates glue bleed, improves stain and water repellency, minimizes shrinkage, and allows most multicolored garments to be cleaned with no color transfer.

## Ordering Information

Taylor's Leatherwear clothing is sold only through authorized dealers. Prices quoted are F. O. B. Tullahoma, Tennessee.

All Taylor's Leatherwear garments are made in America, and carry a five year warranty. All Appalachian garments are imported and carry a one year warranty.
